# Improve your opportunity to earn FIT contract priority points with OSEA's Community Support Resolution Tool

OSEA
Ontario Sustainable Energy Association

*Produced in partnership with:* The Conference Board of Canada
**Insights You Can Count On**

ClearSky Advisors

**www.ontario-sea.org**

## Benefits

The Ontario Sustainable Energy Association's (OSEA) Community Support Resolution Tool equips project proponents with comprehensive data on their project's economic impact. Benefits for include:

- Improved communication of the economic impact of your project to local stakeholders such as community groups, municipal governments, and property owners,
- Objective, comparable, and credible 3rd party generated data endorsed by OSEA to support your efforts to obtain municipal/Band support in the form of a council resolution for FIT contract application Priority Points, and
- Strong transparent arguments for greater uptake and less resistance of renewable energy generation in Ontario

## Description

OSEA has developed a web based Economic Impact Assessment Tool to analyze Wind and Solar PV projects in conjunction with the Conference Board of Canada and Clear Sky Advisors. The Tool is licensed for the sole use of OSEA and has the capacity to generate key project economic indicators (direct, indirect and induced) including:

- Wages and salaries across sectors (i.e. construction, manufacturing, transportation, etc.)
- Employment across sectors (i.e. construction, manufacturing, transportation, etc.)
- Taxes: income, property, HST, including a breakdown of Federal, Provincial and Municipal tax totals)
- Gross Domestic Product (GDP) across sectors (i.e. construction, manufacturing, transportation, etc.)

## Report and OSEA Endorsement

OSEA members can obtain a Community Support Resolution report, which incorporates members project economic impact data (a free member service) with model output appendices, a municipal resolution presentation template, a glossary of terms, model description and an OSEA endorsement.[1]

## Rates for the Full Service[2]

| Project Size | Rate* |
|---|---|
| >10kW ≤ 100kW | $1,500 |
| >100kW ≤ 250kW | $3,000 |
| >250kW ≤ 500kW[3] ≤ 10MW (wind) | $4,500 |

**All figures are without HST*

***Existing and emerging Community Co-operatives who support OSEA's vision have free access to the service.*

## Support

OSEA plans to promote the wide deployment and use of the Community Support Resolution Tool among its membership and its broader network at industry stakeholder conferences and networking events, and at community-based workshops across the Province of Ontario.
