

# Small Scale Commercial Wind Workshop

Are you interested in replacing outside electrical power with your own generated on-farm?  
Are you interested in learning more about 'Net Metering' opportunities or  
the Renewable Energy Standard Offer Contract Program?

**When:** Saturday June 7, 2008 (in association with the Tiverton Energy Expo)

**Where:** Lions Hall, Tiverton Ontario

**Cost:** \$25 (includes full lunch, workbook and entrance to the Tiverton Energy Expo)

**Schedule:** Registration 8:30am; Workshop 9:00am - 4:00pm

The Workshop will cover 10 kW to 100 kW wind systems and...

- Determine what small wind systems may be compatible for agriculture operations;
- Offsetting On-Farm Power Requirements vs. Net Metering vs. Standard Offer Program;
- 'Red Tape' including: zoning, building permits, Hydro One Connection Impact Assessments etc.
- Wind measurements and Project Analysis using RETScreen;
- Turbine purchase and tower installation;
- Financing/Return on Investment;
- Guest Speaker: Carol Leeming (80 kW turbine on a 36,000 poultry layer farm).
